## Apleona Becomes Swissgrid's New Facility Management Partner in Switzerland

For four years beginning in June 2018, Apleona HSG Facility Management will provide technical and infrastructural facility management at three office locations, including the new headquarters in Aarau, and at five regional bases of Swissgrid in Switzerland. Swissgrid operates the Swiss extra-high-voltage network and, as the owner, is responsible for its maintenance, renovation and expansion.

Apleona HSG Facility Management is taking responsibility for the operation, maintenance, and repair of the sophisticated technical facilities and for infrastructure services such as cleaning, waste disposal, and relocation management. Thanks to Apleona's strong regional and national presence in Switzerland, the contracted facility management services can be rendered quickly and in uniformly high quality.

### About Apleona

Apleona is a leading European real-estate services provider based in Neu-Isenburg near Frankfurt. Approximately 20,000 employees in more than 30 countries operate, manage, expand and equip real estate in all asset classes, operate and maintain plant and assist customers in a whole host of industries with production and secondary processes. The Group's range of services extends from integrated facility management, building technology and interior fittings to real-estate management with all commercial services, letting, leasing and marketing of real estate. All services are provided on a modular basis or in an integrated package. In a regional or supra-regional account structure according to customer requirements, country-specific and service-specific operating companies ensure optimum performance and a uniformly high standard of quality across national borders. Apleona's customers include leading industrial companies, investment funds, insurance companies, banks, the public sector, developers, owners and users.
