

Realising Events

Renting furniture, tent systems, event equipment – event catering, trade fair, construction & logistics

Apleona HSG Event Services is one of the leading full-service event companies in Germany. It provides services and a portfolio of event equipment which includes everything clients need for events of any size: premium rental furniture for all occasions, variable-use tent systems, and a wide range of event accessories.

In addition, the company plans and builds trade fair stands in its own carpentry workshop, as well as coordinating national and international trade fair appearances and roadshows for many major customers, including provision of event logistics and a storage service.

The event catering team provides the ideal supplement to the department: contemporary catering paired with extremely high product quality standards and artisanal skill! In addition to excellent quality and perfect preparation of dishes, the team's priority is the intelligent combination of catering with event equipment rental. This presents synergies, for example, when Apleona HSG Event Services are able to set up the tent landscape and kitchen, deliver the rental furniture, and provide all the service material needed for catering. In this arrangement, perfectly coordinated departments guarantee smooth processes and reliable budgeting for the event.
